About SAMPAT

SAMPAT is a software solution tailored to modern business for managing Assets and resolving Ticket efficiently. Whether you're a small business or a large enterprise, SAMPAT offers features to optimize operations, save costs, and improve service delivery.

● Ticket Management

Centralized Ticket Dashboard

Access, Manage and prioritize all service requests from a single, user-friendly dashboard.

Automated Ticket Routing

Accelerate resolutions by assigning tickets automatically to the right team or personnel based on pre-set criteria.

Custom SLAs & Escalation

Define and monitor SLA's and ensure timely issue resolution with automated escalations.

Multi-Channel Support

Accept tickets via email, web portal, or phone for a seamless customer experience.

Status Tracking & Notifications

Keep stakeholders informed with real-time updates and alerts on ticket status.

Analytics and Insights

Measure performance metrics like ticket resolution time and customer satisfaction with comprehensive analytics.

● Benefits at a Glance

● Optimize Asset Utilization

Gain complete visibility into your assets, ensuring efficient allocation and reduced waste.

● Enhance Support Efficiency

Accelerate issue resolution and improve response times with a structured ticketing system.

● Boost Productivity

Save time and resources by automating manual processes and reducing administrative overhead.

● Data-Driven Decisions

Leverage actionable insights to make informed decisions and drive operational excellence.

● ROI

Achieve maximum return on investment with reduced operational costs, optimized asset usage, and enhanced efficiency through automated workflows and insightful analytics.
